Want your pet's bed to blend into your decor? Consider the Hardwood Hideaway, a side table with a door that opens to a sleeping spot. Place it next to your bed or the living-room sofa; the door can be adjusted to allow pets independent access, and the piece is available in several finishes.

Bowser's Moderno chair is a contemporary, upholstered chair that looks like a miniature Corbusier. Max Comfort's Gustavo pet sofa is a stylish lounge complete with memory foam mattress.
