

New Technology Turbocharges Spring Cleaning

CSN Features Innovative Tools For '08 To Help Make This Year's Ritual More Effective and Efficient

Spring will be here in a matter of weeks. While anticipation will soon build for outdoor parties, barbeques and gardening, the task you've been dreading all winter has to come first – Spring Cleaning. This year, CSN Stores is coming to your rescue with a new crop of technology that will make your least favorite part of the season pass in a flash.

Let's tackle the great outdoors first. The new Kranzle Mini Power Pack Pressure Washer will make cleaning your house siding, patio, deck, driveway, walks and cars much easier than it has ever been. This pressure washer features a Dirt Killer nozzle which doubles the washer's cleaning efficiency and a built-in hose reel that comes with a 50' wire braided hose. Offered by CSN Stores for \$749, this could also be a great early Father's Day gift for the Dad who thrives on neatness.

Now let's head indoors. We have two brand new tools from Verilux that will help you achieve a new level of cleanliness in all rooms of your house. The UVC Sanitizing Wand and Sweeper both utilize Germ-X Lightwave Technology to sanitize all your household surfaces instantly - eliminating mold, spores, bacteria, dust mites and other allergens.

The Wand is ideal for sanitizing mattresses, countertops, flatware, computer keyboards, and baby rooms. The Sweeper kills germs, mold, bacteria and viruses that inhabit low-pile carpeting and floors. Because the sweeper disinfects with light, instead of chemicals, your family does not need to worry about exposure to harmful household cleaners. The Wand and Sweeper are available at CSN Stores for \$129.95 and \$99.95 respectively.

Once you've completed your annual ritual, the new Rubbermaid Commercial SeBreeze Adjustable Fan Dispenser will help keep larger rooms smelling clean. Offered for \$55 at CSN Stores, it provides continuous odor control for 30 days in rooms up to 600 square feet.

For more information on this new spring cleaning technology, please contact Chuck Casto or Will Flanagan at ccasto@csnstores.com or wflanagan@csnstores.com.
