

Check Lawn Mowing Off Dad's "Honey-Do" List -- Forever

CSNStores.com Introduces The Robomower RM400 – Best 'Dad Gadget' Ever

What will your Dad love most about the Robomower? The great-looking lawn? The extra free time he'll have? The admiration from his neighbors? Or maybe he'll appreciate the fact that he'll never again hear the words: "Get off your butt and mow the lawn." For all of these reasons and more, this is truly The Ultimate Father's Day Gift.

CSN Stores (CSNstores.com) now offers the new, RM400 Robomower -- a fully automatic, robotic, programmable lawnmower. Follow the easy set-up directions and program the time and days of the week you'd like the Robomower to cut your lawn. It will take care of the rest, traversing your lawn in a systematic pattern until it is expertly cut. Once it's done, the Robomower will return to its docking station to recharge and rest until its next assignment. Dad will get all of the credit for zero effort.

Not merely a tool of convenience, the Robomower cuts the grass into very small clippings that decompose and act as natural fertilizer, resulting in a healthier, better-looking lawn, as well. With the Robomower, Dad will be able to squeeze in a round of golf and 'work' on the lawn at the same time. Everything about this mower makes sense for him.

New for '08, the RM400 covers more ground than ever before. Just imagine your Dad admiring his freshly cut lawn and thinking proudly to himself, 'I had nothing to do with this.' Available for \$1,715.75 at csnstores.com, the Robomower is a gift your father will appreciate forever.
