

Don't Keep Your Favorite Clothes Closeted: Use Them As Lampshades!

It's the **Clothes Hanger Lamp**. Yes, you read it right. It's a lamp that uses clothing as a lampshade. Designed by Hector Serrano for the prolific Dutch design house **Droog**, the [Clothes Hanger](#) Lamp leaves a laundry list of opportunities to create new looks.

One day you can hang a shirt on the Clothes [Hanger](#) Lamp, the next day a stunning linen suit or a spaghetti strap evening dress. Let your imagination run wild!

The Clothes Hanger Lamp comes with an acrylic handle, a mounting wall hook, and a 110 volt, 11-watt florescent light bulb that is CE ([Consumer Electronics](#)) certified. It does have an electrical cord, so you will have to mount the Clothes Hanger Lamp near an electrical outlet.

Light-colored clothing works best on the Clothes Hanger Lamp. It will allow maximum [lighting](#) and minimal lightening of your clothes.

Have fun with this! See it at [AllModern.com](#).

Here's another design you can hang your clothes on: [Got A Mess On The Floor? Hang It On The Wall!](#)
