HIGH DESIGN FOR SMALL PEOPLE

Who says furniture fashion is just for grown-ups? These chic chairs by some of the world's top designers will help your kids learn that great style can be fun, functional, and sized to fit their world.

JULIAN CHAIR

The Spanish cartoonist-turned-designer Javier Mariscal produced this whimsical children's chair that resembles a three-dimensional, well, cartoon—of a cat, to be specific. "Julian is a friend who keeps you company," says Mariscal. "He likes children so much that he'll let them jump on him, climb all over him, shout at him or take him for a walk around the garden." Made of rotational-molded polyethylene with softly rounded curves, these chairs are suitable for all sorts of rambunctious uses indoors or out by kids of all ages. Dimensions: 14.2" w x 19.3" d x 21.7" h, seat height, 11.8". It comes in green (shown), red, yellow, or white. Made by the Italian design giant Magis, the Julian Chair is available in the United States for \$96 from www.allmodern.com. (800) 615-9703.
