2. CSN Futons

CSN Futons

Clean and presentable, CSN Futons gets high marks for usability. Similarly to Futon Planet, CSN Futons offers a solid selection for futon products. While CSN does dabble in some of the lower quality futon products, we hate to see, their prices are honest and fair. Like Futon Planet, CSN Futons offers a toll free 800 number near the top of their page. Unlike Futon Planet, they do not offer online chat. While Futon Planet does offer a very powerful search tool, CSN seems to be just ahead by combining a manufacturers' drop down list in their onboard search feature.
