### FOR THE TINY TOTS IN YOUR LIFE...by Christabelle

Don't know what to get the kiddies in your life for the holidays? Me neither! But some super sleuthing this past month led me to three VERY DIFFERENT and VERY ADORABLE gifts for the tiny tykes in your life.

No more run-of-the-mill gifts under the tree when you can actually gift- well - a **tree** for your child. Teach them about nature and art at the same time with **notNeutral - Season Decals**. Highlight any room (big or small) with these attractive 19" peel-and-stick Season Decals by WallCandy Arts! Let your child's creativity (and yours too!) roam the wild by decorating a tree trunk and branches with leaves, flowers, birds and butterflies. What a fun and unique way to family bond - and how great to do on a blizzard day! And for parents - no need to re-paint, sand or spackle the walls after the artwork is complete - these decals leave behind no unsightly marks or wall damage. The **notNeutral Season Decals** includes 44 decals, made of removable and reusable vinyl and fully coordinates with the other Season series made by WallCandy. SO FUN! Available (and on sale right now) for \$60 at **AllModern.com**.
