

► Travelon Laptop Cases

\$30 TO \$190 AT WWW.MAGELLANS.COM,
WWW.LUGGAGE.COM AND MANY OTHER
ONLINE RETAILERS

Every time I get to airport security, I go through the same routine: Take off my shoes, schlep out my laptop computer, mumble under my breath. Now I can cut out one of the steps. The new line of "checkpoint-friendly" laptop cases from Travelon is designed to meet new Transportation Security Administration rules. The cases provide a clear view of the laptop for X-ray screening without the need to take the computer from its sleeve.
